

SAMPLE SHIPPER SCRIPT

I was wondering whether or not you were working on a situation where you had some lanes available that you hadn't been able to cover **OR** whether or not you had some freight that you had some brokers fall off on?

Perhaps I might be able to help you with that problem, possibly lending some solutions.

Are you having any issues with getting your **LTL or PARTIAL freight** covered?

Let me take a look at those lanes as well to see what the market is yielding on them. I can send you my email address and contact information in order to effectively take a look at any lanes to work on for you as soon as I can.

Thank you.
